ILIAD WATER SERVICE, INC.

Notice of Filing of Rules, Rates and Conditions

The rules, rates and conditions contained in this tariff have been regularly filed with the Washington Utilities and Transportation Commission and are the effective rules, rates and conditions of this company.

No officer, employee or agent of the company has any authority to waive, alter or amend in any respect these rules, rates and conditions, or any part thereof, or to make any agreements inconsistent with these rules, rates and conditions.

The rules, rates and conditions set forth in this tariff are subject at all times to addition, change or abolition after proceedings duly had by the Washington Utilities and Transportation Commission and changes in the rules, rates and conditions set forth in this tariff must first be approved or accepted by the Washington Utilities and Transportation Commission.

RULES AND REGULATIONS

Rule 1 - General

1. Application. The rules set forth in this tariff apply to intrastate services and facilities furnished within the State of Washington by the company, subject to the jurisdiction of the Washington Utilities and Transportation Commission (hereinafter referred to as "Commission").

2. Waiver. The water services furnished by this company are subject to the rates, charges, rules and conditions contained in this tariff. No officer, employee or agent of the company has authority to waive, alter or amend any of these provisions. Rates may be changed or canceled only with the consent or approval of the Commission.

3. Commission Rules. The rules of the Commission regulating water service are hereby adopted and by this reference are made a part of this tariff.

RULES AND REGULATIONS

Rule 2 - Water Service

1. Application Service and supply of water shall be rendered only after the signing of an application by the prospective customer and its acceptance by the utility, such application to state fully and truly all the purposes for which water may be required and agreement by the applicant to conform to the lawful Rules and Regulations established by the utility and filed with the Washington Utilities and Transportation Commission (hereinafter referred to as "Commission").

2. Change of Use The customer will not increase the customer's demand or use of service as stated in the customer's application without giving due notice of such increase. In the event of such increase, the customer will be required to pay the utility's regularly published rates for such increased service and demand from the date of connection and use of the same.

Whenever the customer desires to discontinue the use of water for any special purpose or through any fixtures mentioned in the original application, the customer shall cause the fixture to be removed and the branch pipe or service supplying the same to be capped or plugged, and shall notify the utility in writing before any reduction in charge will be made. Such a reduction in charge is contingent upon the provisions of the utility's tariff.

RULES AND REGULATIONS

Rule 2 - Water Service (Continued)

- 3. Termination of Service Service will be discontinued upon the customer giving the utility written notice prior to the date of disconnection. The customer will be held responsible for all charges accruing prior to the date specified in the notice, or in the case of failure to give notice, then until the water is turned off.
- 4. Limitations on Service Service shall be subject to the capacity available from existing wells, or other sources of supply, of the utility. All schedules for water service apply to customers located on the established water mains of the utility. The customer shall not sell, or permit others to use such service except when expressly authorized to do so under appropriate contract.

Rule 3 - Services

The pipe and facilities through which water is furnished from the distribution system to each separate building, residence, summer cottage, tent, camp, or group of buildings that is or could be logically served by one pipeline will be considered a service. Only one customer will be permitted on a service except as approved by the utility.

Rule 4 - Service Connection Charge

Applicant shall pay the appropriate service connection charge, see Schedule 101, prior to receiving service from the company.

RULES AND REGULATIONS

Rule 5 - Reconnection Charge

Whenever service has been discontinued due to delinquent account, request of customer, refusal to make proper repairs, failure to comply with these Rules and Regulations, or similar cause, a charge of \$30.00 will be made for restoring service, provided reconnection of the facilities can be completed within the hours of 8:00 a.m. to 4:00 p.m., Monday through Friday, except holidays. If reconnection is requested to be made during other than the above hours, the charge shall be \$50.00. The reconnection charge shall be paid before service is restored.

If the utility dispatches an employee to discontinue service and the customer pays the delinquent amount to the dispatched employee, a \$20.00 service charge may be assessed by the utility to cover expenses incurred. No charge will be made for reconnection of the service if the shut-off was made for the convenience of the utility in making repairs, changes, etc.

Rule 6 - Service Connections

The utility will construct service connections of a proper size, as determined by the utility, from its distribution mains to the applicant's property. The utility reserves the right to refuse to construct a service connection to any property in case a reasonable doubt exists as to continuity of service, or in case the applicant's pipes are not properly constructed and protected.

RULES AND REGULATIONS

Rule 7 - Installation of Meters

The utility reserves the right to meter any flat rate service at its convenience, the utility's metered service rates thereupon to become effective, provided the customer has received 30 days written notice. All meters so placed will be installed and maintained by the utility without cost to the customer.

Rule 8 - Distribution Main Extension

Where elevation and construction conditions permit and one or more bona fide prospective permanent customers request a main extension and the utility so desires to provide service, the main extension may be constructed pursuant to a developer extension contract executed for such construction.

Rule 9 - Responsibility for, and Maintenance of, Services

The point at which water shall be delivered to and received by the customer shall be on the property line (Point of Delivery) of the customer's premises at a point designated by the utility. The utility will install its meter or, if no meter, connection to customer's facilities at the Point of Delivery except, at its option, the utility may install its meter at some other agreed point on the premises of the customer, provided that in such event the property line shall nevertheless be deemed the Point of Delivery. All pipe and fixtures on the customer's side of the Point of Delivery shall be provided by the customer and maintained, operated and protected from freezing at the customer's expense. The utility shall NOT be liable for loss or damage caused by leakage or escape of water after the water has passed the Point of Delivery. Nor shall the utility be responsible for any condition, equipment, pipes of other water line improvements on the customer's premises.

ILIAD WATER SERVICE, INC.

RULES AND REGULATIONS

Rule 9 - Responsibility for, and Maintenance of, Services (Continued)

Where there are leaking or defective pipes or fixtures, the water may be turned off at the option of the utility until the proper repairs are made. The utility may require any service to be equipped with a stop and waste cock to be used during freezing weather instead of permitting the water to be run continuously from faucets.

The customer shall be responsible for installation and maintenance of any pressure systems or booster pumps required to maintain adequate pressure between the Point of Delivery and the customer's premises where the distance or elevated location of customer's premises from Point of Delivery requires such pressure system or booster pump.

Where the customer develops or creates a condition on customer's premise which causes a backflow into utility's system, customer shall, at customer's expense, install and maintain equipment to prevent such back flow.

Rule 10 - Access to Premises

The utility's regularly authorized agents or employees shall have access to the premises of the customer at reasonable hours for the purpose of meter reading, and for the inspection, connection, disconnection, repair or removal of the utility's property installed thereon.

Rule 11 - Interruptions to Service

The utility will make a diligent effort to render uninterrupted service and supply of water; and, in cases where shut-off is necessary for repair, reconstruction, damage prevention or similar cause, the utility will endeavor to give advance notice to its customers of such

expected shut-off. However, the utility will not be responsible for any damage which may result from any cessation of service such as above outlined, nor for failure to give notice of shut-off when circumstances are such that it is not timely, difficult or impossible to give notice as above stated. In any event, the utility's liability for damages caused by an interruption in service shall be limited to a credit, based on a pro rata calculation, of any day or days for which an interruption in service occurs as described in Rule 12.

ORIGINAL

RULES AND REGULATIONS

Rule 12 - Credit for Interruption to Service

1. Allowance for Interruption of Service - When. In the event of an interruption to the service which is due to causes beyond the control of the customer, an allowance will be made, upon request, if the interruption continues for more than twenty-four hours from the time it is reported to the company.
2. Allowance for Interruption of Service - How Calculated. The allowance will be the prorated portion of the monthly rate for the service or the portion of the service made inoperative and will begin twenty-four hours after the time the interruption to the service was first reported to the company.

Rule 13 - Bills

All bills shall be paid in arrears on or before the twentieth day following the date the bill is issued. Bills are normally issued ten days after the period for which the service is billed. On metered service, where the meter has not been read, the bill shall be for the average of the two prior billing periods for which readings are available with any necessary correction or adjustment shown when the next succeeding meter reading is available.

Rule 14 - Deposits

A customer may be required to make an advance deposit not to exceed two-twelfths of estimated annual billings. Deposits shall be held, applied to bills, and administered as provided in WAC 480-110-051, as now existing or hereafter amended.

ORIGINAL

RULES AND REGULATIONS

Rule 15 - Delinquent Accounts and Disconnections

Disconnections shall be handled as provided in WAC 480-110-071, a copy of which is available upon request.

Rule 16 - Rates

Rates for water service and supply shall be those published in the utility's tariff on file with the Commission. Unless otherwise stated in this tariff, the rates shall apply to a single service, to one customer at one premises. Where two or more families with separate housekeeping establishments occupy the same or separate dwellings, each family using water shall be considered a separate customer. Each separate housekeeping establishment or business will each be considered a customer.

When conditions require that more than one customer be supplied through one meter, each customer shall be charged the minimum charge as provided by the schedule of rates. If the consumption as shown by the meter exceeds the allowance for the minimum charge multiplied by the customers, the excess consumption charge shall be computed at the regular rates for one customer and the amount prorated equally to the several customers.

Rule 17 - Account Service Charges

A service charge of \$25.00 will be made for each new account or change of account responsibility on an existing service. Such charge shall be included in the initial billing to the customer. An additional charge of \$25.00 is applicable when the utility must dispatch an employee to establish a base meter reading. Where separate new connections or changes are required for service billed on different account numbers at the same address, the service charge shall be applied to each account, unless service has been separated for the utility's convenience.

RULES AND REGULATIONS

Rule 17 - Account Service Charges (Continued)

The service charge shall not apply to the following:

- (a) Installation of a new service.
- (b) When a temporary or seasonal connection or reconnection charge is made.
- (c) When an owner or agent assumes temporary responsibility for service to vacated premises.

A service charge shall be applied to each account for each check returned unpaid for any reason by the bank upon which the check is drawn. The service charge is \$10.00. A returned check is considered to be a nonpayment.

Rule 18 - Sprinkling and Irrigation

The utility's water systems are designed for domestic consumption. Irrigation and sprinkling are not considered to be domestic uses.

Except as may otherwise be provided by contract, water used for sprinkling and irrigation shall be paid for at the regular prescribed tariff rates for such service.

No person shall use water for sprinkling or irrigation purposes during any fire in the area, and all sprinkling and irrigation shall be stopped immediately when an alarm of fire is sounded and not resumed until the fire has been extinguished.

Sprinkling and irrigation shall be suspended when the utility determines that weather conditions or fire hazard conditions require. Sprinkling and irrigation may be limited to certain times, conservation programs, or terminated entirely based on the utility's judgment.

RULES AND REGULATIONS

Rule 19 - Property on Public Highways

All distribution mains and those portions of service connections, exclusive of customer owned lines, in or on streets or public highways will be considered utility property and will be maintained by the company at its expense.

Rule 20 - Late Payment Charge

A late payment charge of \$2.00 and, in addition, one percent (1%) of any unpaid balance, will be charged each month to accounts which remain unpaid more than 20 days after the bill date and will be added to the customer's billing statement at the next subsequent bill date.

The late payment charge will not be applied to any disputed amount unless such amount remains unpaid for more than 20 days after the dispute has been resolved.

Rule 21 - NSF Discharged Checks

A charge of \$20.00 shall apply to any payment received by check and said check is returned to the utility as NSF or is otherwise not honored for any reason.

Rule 22 - Service Visit Charge

A service charge of \$30.00 will apply when the customer requests a second or subsequent service visit and:

(1) the cause of the disruption or interruption of the customer's service or degradation of quality is found to be the same cause determined on an earlier service visit (within 90 days of the earlier visit); and

(2) is on the customer's side of the Point of Delivery.

The company will maintain service records to document that the problem found is the same problem previously encountered. The record will show, at a minimum, the customer's name and address, date of service request, date of service call (if different from the date of service request), type of problem and disposition. The company will notify the customer on the initial service visit (in person or by written notice) when the cause of the problem is on the customer's side and, further, will inform the customer that a subsequent service call which finds the same problem will be billed at tariff rates. The company will also advise the customer prior to making a second or subsequent service visit that charges will apply if the problem is determined to be the customer's responsibility.

Rule 23 - Collection Costs

Should legal action be necessary to collect any sums due the utility, the costs of suit, including, but not limited to attorney fees, accounting fees, and collection costs shall be recoverable.

Rule 24 - Limitations on Liability

1. General. The company's liability, if any, for its gross negligence, willful misconduct or violation of Chapter 19.122 RCW is not limited by this tariff. With respect to any other claim or suit, by a customer or by any others, for damages associated with the installation, provision, termination, maintenance, repair, or restoration of service, the Company's liability, if any, shall not exceed an amount equal to the proportionate part of the monthly recurring charge for the service for the period during which the service was affected. This liability shall be in addition to

SCHEDULE 101 - ALL SYSTEMS

Service Connection Charge *

<u>Size of Service Connection</u>	<u>Service Connection Charge plus associated Federal Income Tax Recovery</u>
Up to 3/4" service	\$ 350.00 **
Larger than 3/4" service	Time and Material plus Federal income tax recovery

1. "Service Connection" as used herein includes the installed pipe from a water main of adequate capacity to the applicant's property line and the installation of a meter box and fittings necessary to provide the requested water service. Paving repair costs, when applicable, are in addition to the Service Connection Charge. Cost of a meter, if any, will be borne by the utility.

2. Where an existing water main must be enlarged to furnish an adequate supply of water to the applicant(s) and present customers, the replacement cost of the water main and all costs associated with said replacement shall be borne by the applicant(s) requesting the new service(s).

3. All work will be commenced upon execution of a written agreement between the utility and the applicant and payment by the applicant, in advance of construction, of all contracted costs. The Service Connection Charge is not refundable.

* Except where a separate service connection change is required by recorded covenants, in which case such other charge shall apply.

** This charge includes recovery of federal income taxes.

SCHEDULE 104 – ALDER LAKETREATMENT SURCHARGE**A. Applicable:**

Applicable to all retail customers receiving service on the Alder Lake Water System.

B. Charge:

	<u>Flat Rate, Per Month*</u>
Each connection, rate case cost surcharge, until June 1, 2011	\$ 4.34
Each connection, treatment plant surcharge, until June 1, 2011	<u>\$20.25</u>
Each connection, total monthly surcharge, until June 1, 2011	\$24.59
Each connection, treatment plant surcharge only, from July 1, 2011 until June 1, 2028:	\$ 20.25
	OR
One-Time Total Charge	\$3,224.08

- Total of payments for customers choosing the flat rate per month option is \$5,015.33, including interest.

State utility tax shall be assessed in addition to the surcharge.

C. Purpose:

This surcharge is to recover loan costs of the installation of a new chlorination plant and the legal rate case costs associated.

ILIAD WATER SERVICE, INC.

(N)

SCHEDULE 104 – ALDER LAKETREATMENT SURCHARGE**D. Conditions:**

Each customer must choose whether to pay the assessment as a one-time total charge or a charge over time. Each customer must exercise his or her choice within thirty days of the effective date of this Schedule as set out by commission order. There will be no prepayment penalty to any customer who initially chooses monthly payments if the customer pays the balance due during the period the surcharge is in effect.

The first bill including a surcharge for those customers that choose payments over time will be the June, 2008 bill.

The surcharge for collection of rate case costs will expire upon collection of \$5,940 with no interest or on June 1, 2011, whichever occurs first. This Schedule and the surcharge for plant construction will expire upon the Company collecting \$116,575 in principal sums (excluding interest and taxes) or June 1, 2028, whichever occurs first.
