WATER SERVICE
RULES AND REGULATIONS

Rule 1 - Adoption of Rules of Regulator Authorities

The rules regulating water service prescribed by the Washington Utilities and Transportation Commission, hereinafter referred to as the Commission; are hereby adopted and by this reference are made a part of this tariff.

Rule 2 - Schedules and Conditions

The schedules and conditions specified in this tariff for water service are subject to change in accordance with the public service laws of the state of Washington or any amendment thereof. The amount of water to be furnished hereunder shall be subject to the capacity available from existing wells, or other sources of supply, of the utility. All schedules for water service apply to customers located on the established water mains of the utility.

Rule 3 - Supply and Use of Service

Service will be supplied only under and pursuant to these rules and any modifications or additions thereto lawfully made, and under such applicable rate schedule(s) as may from time to time be lawfully fixed. Service will be supplied only to those who secure their source of water exclusively from the utility, unless otherwise provided under appropriate contract. Water service shall be used only for the purpose specified in the service agreement and applicable rate schedule(s), and customer shall not sell, or permit others to use such service, except when expressly authorized to do so under appropriate contract.

Rule 4 - Application and Agreement for Service

Each prospective customer desiring water service may be required to sign the utility's standard form of application or other form or agreement before such service is supplied by the utility.

WATER SERVICE
RULES AND REGULATIONS

Rule 4 - Application and Agreement for Service (Cont'd)

An application for service shall be deemed to be a notice that the prospective customer desires water service from the utility and represents his agreement to comply with the utility's Rules and Regulations on file with the Commission and in effect at the time water service is furnished. In the absence of assigned application for water service, the delivery of water and the taking thereof by the customer shall be deemed to constitute an agreement by and between the utility and the customer for the delivery and acceptance of service under the applicable rate schedule(s) and these Rules and Regulations.

Rule 5 - Company's Service Pipe and Meters

The utility will construct service connections of a proper size, as determined by the utility, from its distribution mains to the customer's property. The utility reserves the right to refuse to construct a service connection to any property in case a reasonable doubt exists as to continuity of service, or in case the applicant's pipes are not properly constructed and protected.

The utility reserves the right to meter any flat rate service at its convenience, the utility's metered service rates thereupon to become effective, provided the customer has received 30 days written notice. All meters so placed will be installed and maintained by the utility without cost to the customer.

A meter will be installed upon any flat rate service at the request of the customer, provided however, that the actual cost of the meter installation must be paid by the customer at the time of the installation and before the water is turned on. The amount so paid will be refunded to the customer by allowing him credit of one-quarter (1/4) of his monthly bill until such time as the amount has been paid, provided such refund payments do not run for more than three years from the date when refunds began. All meters will be maintained by the utility without cost to the customer.

WATER SERVICE
RULES AND REGULATIONS

ORIGINAL

Rule 6 - Service Connection Charge

See Schedule No. 3

Rule 7 - Reconnection Charge

A reconnection charge of \$25.00 dollars per service shall be made for any subsequent reconnection of the customer's service to the utility's distribution system. Such charge is to apply only in cases where service has been discontinued on account of delinquent account, request of the customer, refusal to make proper repairs or similar cause. No charge will be made for reconnection of service if the shut-off was made for the convenience of the utility in making repairs, changes, etc.

Rule 8 - Distribution Main Extension

Water Main Distribution Extensions will be installed after contracts have been approved by the Washington Utilities and Transportation Commission pursuant to WAC 480-80-335.

WATER SERVICE
RULES AND REGULATIONS

Rule 9 - Responsibility for, and Maintenance of, Services

The customer will assume all responsibility on his premises for water supplied by the utility. The utility will be exempt from all liability for loss or damage caused by leakage or escape of water furnished by the utility, after the same has passed the point of the utility's ownership.

All service pipes and fixtures on the premises of the customer must be kept in repair and protected from freezing at the expense of the customer. Where there are leaking or defective pipes or fixtures, the water may be turned off at the option of the utility until the proper repairs are made. The utility may require any service to be equipped with a stop and waste cock to be used during freezing weather instead of permitting water to run continuously from faucets.

Rule 10 - Access to Premises

The utility's regularly authorized agents or employees shall have access to the premises of the customer at reasonable hours for the purpose of meter reading, inspection, connection, disconnection, repair or removal of the utility's property installed thereon.

Rule 11 - Interruption to Service

The utility will make a diligent effort to render uninterrupted service and supply of water; and, in cases where shut-off is necessary for repair, reconstruction, damage prevention or similar cause, the utility will endeavor to give advance notice to its customers of such expected shut-off. However, the utility will not be responsible for any damage which may result from any cessation of services such as above outlined, nor for failure to give notice to shut-off when circumstances are such that it is impossible to give notice as above stated.

Rule 12 - Payment of Bills

All bills are due and payable upon receipt and are considered delinquent fifteen (15) days after the date mailed. Bills shall be deemed received upon personal delivery to customer or three (3) days following the deposit of the bill in the United States Mail to the customer's last known address. Bills will be rendered monthly. All flat rate bills to be paid monthly in arrears. (c)

WATER SERVICE
RULES AND REGULATIONS

Rule 15 - Rates

Rates for water service and supply shall be those published in the utility's tariff on file with the Commission. Unless otherwise stated in this tariff, the rates shall apply to a single service, to one customer at one premises. Where two or more families with separate housekeeping establishments occupy the same or separate dwellings, each family using water shall be considered a separate customer. Each separate housekeeping establishment or business, will each be considered a customer.

When conditions require that more than one customer be supplied through one meter, each customer shall be charged the minimum charge as provided by the schedule of rates. If the consumption as shown by the meter exceeds the allowance for the minimum charge multiplied by the customers, the excess consumption charge shall be computed at the regular rates for one customer and the amount prorated equally to the several customers, or otherwise as may be agreed among themselves.

Rule 16 - Sprinkling and Irrigation

Water used for sprinkling and irrigation shall be paid for at the regular prescribed tariff rates for such service. The hours for such use shall be as prescribed from time to time by the utility, subject to protest by any customer affected and to review by the Commission.

No person shall use water for sprinkling or irrigation purposes during any fire in the area, and all sprinkling or irrigation shall be stopped immediately when an alarm of fire is sounded, and not resumed until the fire has been extinguished.

WATER SERVICE
RULES AND REGULATIONS

Rule 17 - Property on Public Highways

All distribution mains and those portions of service connections, exclusive of customer owned in or on streets or public highways will be considered utility property and will be maintained by the utility at its expense.

Rule 18- General

All special cases not covered by the foregoing Rules and Regulations will be covered by special rules to be filed as a part of the utility's tariff on file with the Commission, subject in each case to protest according to law.

The utility hereby adopts and makes a part of this tariff the regulations of the Commission as provided in Chapter 480-110, Washington Administrative Code.

SCHEDULE NO. 3

SERVICE CONNECTION CHARGE

A charge of \$1,500.00 will be made for each service connection 1 inch or smaller, for which the utility will furnish and install all necessary pipe and pipe fittings from its main to the customer's property line. The charge for a larger size pipe connection or any connection longer than the width of the street or public highway will be equal to the actual cost of labor and materials.

The charge does not include the cost of a meter or its installation. A meter will be furnished, installed and maintained by the utility without cost to the customer.

The service connection charge will be paid before the water is turned on.
