WATER SERVICE
RULES AND REGULATIONS

Rule 1 - Water Service

(a) Application: Service and supply of water shall be rendered only after the signing of an application by the prospective customer and its acceptance by the utility, such application to state fully and truly all the purposes for which water may be required; and after agreement by the applicant to conform to the lawful rules and regulations established by the utility and filed with the Washington Utilities and Transportation Commission (hereinafter referred to as "State Commission").

(b) Change of Use: The customer will not increase his demand or use of service as stated in his application without giving due notice of such increase. In the event of such increase, the customer will be required to pay the utility's regularly published rates for such increased service and demand from the date of connection and use of the same.

Whenever the customer desires to discontinue the use of water for any special purpose or through any fixtures mentioned in the original application, he shall cause the fixture to be removed and the branch pipe or service supplying the same to be capped or plugged, and shall notify the utility in writing before any reduction in charge will be made. Such a reduction in charge in contingent upon the provisions of the utility's tariff.

(c) Termination of Service: Service will be discontinued upon the customer giving the utility written notice prior to the date of disconnection. The customer will be held responsible for all charges accruing prior to the date specified in the notice, or in case of failure to give notice, then until the water is turned off.

Rule 2 - Services

The pipe and facilities through which water is furnished from the distribution system to each separate building, residence, summer cottage, tent, camp, or group of buildings that is or could be logically served by one pipe line will be considered a service. Only one customer will be permitted on a service except by approval of the company.

WATER SERVICE
RULES AND REGULATIONS

Rule 3 - Service Connection Charge

See Schedule 6.

Rule 4 - Reconnection Charge

A reconnection charge of twenty dollars per service shall be made for any subsequent reconnection of the customer's service to the utility's distribution system. Such charge is to apply only in cases where service has been disconnected on account of delinquent account, request of the customer, refusal to make proper repairs or similar cause. No charge will be made for reconnection of service if the shut-off was made for the convenience of the utility in making repairs, changes, etc.

Rule 5 - Service Connections

The utility will construct service connections of a proper size, as determined by the utility, from its distribution mains to the customer's property. The utility reserves the right to refuse to construct a service connection to any property in case a reasonable doubt exists as to continuity of service, or in case the applicant's pipes are not properly constructed and protected.

Rule 6 - Installation of Meters

The utility reserves the right to meter any flat rate service at its convenience, the utility's metered service rates thereupon to become effective, provided the customer has received 30 days written notice. All meters so placed will be installed and maintained by the utility without cost to the customer.

A meter will be installed upon any flat rate service at the request of the customer, provided, however, that the actual cost of the meter installation must be paid by the customer at the time of installation and before the water is turned on. The amount so paid will be refunded to the customer by allowing him a credit of one-quarter (1/4) of his monthly bill until such time as the amount has been paid, provided such refund payments do not run for more than three years from the date when refunds began. All meters will be maintained without cost to the customer.

WATER SERVICE
RULES AND REGULATIONS

Rule 7 - Distribution Main Extension

Where elevation and construction conditions permit and one or more bona fide prospective permanent customers request a main extension, the utility will construct the same. The cost in excess of the estimated revenue for a period of three years shall be paid by the prospective customers in advance of construction. No extension will be considered as coming under this rule where the ratio of the total cost of the extension to the estimated yearly revenue is greater than six to one.

Subsequent applicants requesting service on such an extension within three years after the establishment thereof shall obtain, in writing, from each and all of the original applicants who at the time connected to the extension made payments under these rules, either

- (a) A receipt acknowledging payment of a prorata share of the amount paid on the extension by the original applicants, or
 - (b) A waiver of payment in lieu of receipt under (a);
- Provided, however, that when the cost of furnishing such service exceeds the minimum investment required of the utility, then the connection will be treated as a new extension.

Rule 8 - Responsibility for, and Maintenance of, Services

The customer will assume all responsibility on his premises for water supplied by the utility. The utility will be exempt from all liability for loss or damage caused by leakage or escape of water furnished by the utility, after the same has passed the point of the utility's ownership.

All service pipes and fixtures on the premises of the customer must be kept in repair and protected from freezing at the expense of the customer. Where there are leaking or defective pipes or fixtures, the water may be turned off at the option of the utility until the proper repairs are made. The utility may require any service to be equipped with a stop and waste cock to be used during freezing weather instead of permitting the water to be run continuously from faucets.

WATER SERVICE
RULES AND REGULATIONS

Rule 8 - Responsibility for, and Maintenance of, Services - Cont'd

The utility reserves the right to set meters or other devices without notice to the customer for the detection and prevention of fraud or waste.

Rule 9 - Access to Premises

The utility's regularly authorized agents or employees shall have access to the premises of the customer at reasonable hours for the purpose of meter reading; for the inspection, connection, disconnection, repair or removal of the utility's property installed thereon.

Rule 10 - Interruptions to Service

The utility will make a diligent effort to render uninterrupted service and supply of water; and, in cases where shut-off is necessary for repair, reconstruction, damage prevention or similar cause, the utility will endeavor to give advance notice to its customers of such expected shut-off. However, the utility will not be responsible for any damage which may result from any cessation of service such as above outlined, nor for failure to give notice of shut-off when circumstances are such that it is impossible to give notice as above stated.

Rule 11 - Bills

All water bills shall be paid monthly in arrears within fifteen days of the date of issuance. On metered service, where the meter has not been read, a minimum bill shall be rendered and adjusted when the next succeeding meter reading is available.

Rule 12 - Deposits

Rules relating to water companies are provided in Chapter 480-110, Washington Administrative Code (WAC). Rules covering Credit and Deposits are published as WAC 480-110-051, DEPOSITS, and are available upon request.

WATER SERVICE
RULES AND REGULATIONS

Rule 13 - Delinquent Accounts and Disconnections

Rules relating to water companies are provided in Chapter 480-110, Washington Administrative Code (WAC). Rules covering Discontinuance of Service are published as WAC 480-110-071, DISCONTINUANCE OF SERVICE, and are available upon request.

Rule 14 - Rates

Rates for water service and supply shall be those published in the utility's tariff on file with the State Commission. Unless otherwise stated in this tariff, the rates shall apply to a single service to one customer at one premise. Where two or more families with separate dwellings, each family using water shall be considered a separate customer. Each separate housekeeping establishment or business using water, regardless of joint use, with other housekeeping establishments or businesses, will each be considered a customer.

When conditions require that more than one customer be supplied through one meter, each customer shall be charged the minimum charge multiplied by the number of customers, the excess consumption charge shall be computed at the regular rates for one customer and the amount prorated equally to the several customers, or otherwise as may be agreed among themselves.

Rule 15 - Account Service Charge

A service charge shall be applied to each account for each check returned unpaid for any reason the bank upon which the check is drawn. The charge is \$10.00.

WATER SERVICE
RULES AND REGULATIONS

Rule 16 - Sprinkling and Irrigation

Water used for sprinkling and irrigation shall be paid for at the regular prescribed tariff rates for such service. The hours for such use shall be prescribed from time to time by the utility, subject to protest by any customer affected and to review by the State Commission.

No person shall use water for sprinkling or irrigation purposes during any fire in the area, and all sprinkling or irrigation purposes be stopped immediately when an alarm of fire is sounded and not resumed until the fire has been extinguished.

Rule 17 - Property on Public Highways

All distribution mains and those portions of service connections, exclusive of customer owned lines, in or on streets or public highways will be considered utility property and will be maintained by the utility at its expense.

Rule 18 - General

All special cases not covered by the foregoing Rules and Regulations will be covered by special rules to be filed as a part of the utility's tariff on file with the State Commission, subject in each case to protest according to law.

The utility hereby adopts and makes a part of this tariff the regulations of the State Commission as provided in Chapter 480-110, Washington Administrative Code.

SCHEDULE NO. 7
FIRE FLOW SERVICE

Available

Within the limits of all Water Service Areas and requires fire flow greater than residential requirements and at utility's option and capability to maintain Department of Health standards of quantity and quality.

Applicable

Except where provided by contract, this service is applicable to any new property served by the company, which requires more than 750 gallons per minute for forty-five minutes. This charge is in addition to any other costs necessary to provide service to the customer.

Conditions

The charge for this service is based on any connection to or service by the water system, which uses fire flow capacity derived from the storage and booster station located at 55th Street NW, Gig Harbor. This one-time charge is due and payable prior to issuance of any letter confirming fire flow capacity and availability.

Charge

Each connection or customer: \$15,000.00

Note: This charge will expire upon total collections of \$180,000.00. All funds received from this charge will be considered Contribution In Aid of Construction.
